STRATA CEILING TRIMS

Flannery's Strata Ceiling Trim line continues to expand with our customers' demand. We have added several new Light Cove trims that will accommodate a wide range of fixtures from many different lighting manufacturers. Many Strata Ceiling Trims are available as factory-fabricated corners or radius. Engineered shop drawings are available for all custom cutting and radius.

DRYWALL TRIMS

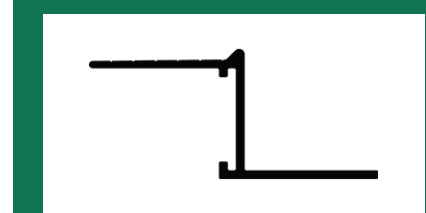

There is no end to the artistic design an architect can achieve with Flannery's Aluminum Drywall Trims. From shadow lines along the bottom of a wall or trims to finish a drywall corner, Flannery has the detail to complete your drywall artwork. Our drywall trims are rigid and easy to install. They all have thinning mud flanges for attachment which allow for a pure drywall aesthetic.

PLASTER & STUCCO TRIMS

From Plaster Reveals to Soffit Vents, Flannery provides the trims every commercial stucco project needs. Plaster stops, Drip Screeds and other exterior products are always in stock. Factory welded intersections and corners make any installation easier and more cost effective. Flannery stocks large quantities of the standard plaster trims that all jobs need and boasts the fastest lead time on fabricated parts.

LED TRIMS

Is your job looking to create Light Art? Then look no further than Flannery's LED Trims. Flannery's LED Trims can be used with drywall, millwork panels or ceilings and are compatible with 1/2" LED Strips or smaller. Most of our LED Trims come with a plastic diffuser that snaps into the trims in order to properly cover the LED's.
